

Real Health Discovery Profile

Nutrient Profile	Nutrient Deficiencies – the Core Root Cause
<i>A, E, Lycopene, Lutein, Beta Carotene</i>	Core panel of antioxidants (basic to good health)
<i>B1, B2, B3, B5, B6</i>	B-Vitamin assessment of actual blood levels
<i>B12 and Folate</i>	Key B-Vitamins for energy and DNA repair
<i>Mg, Cu, Zn, Mn, Se</i>	Red Blood Cell (intracellular) mineral levels—enzyme function
<i>Vitamin C</i>	Plasma Vitamin C level— nature’s healing factor
<i>Vitamin D</i>	Important in bone health, immunity & blood sugar regulation
<i>CoQ10</i>	Enhances oxygen utilization in cells
<i>Chromium</i>	Reduces sugar cravings and promotes better blood sugar control
<i>Essential Fatty Acids</i>	Omega oils 3, 6, 9 – inflammation regulators
<i>Amino Acids Profile</i>	Core building blocks for enzymes and cells
<i>UA + Urine C</i>	Urinalysis with Vitamin C excretion test
<i>Ferritin</i>	Inflammation and Iron reserves
Bio-Function Profile	Brain, Heart, Blood, Thyroid, Gut Metabolism
<i>CBC</i>	Red and White Blood Cell health
<i>CMP</i>	Liver, kidney, and electrolyte balance
<i>Glutathione</i>	Most important antioxidant in detox, brain health, and immunity
<i>Homocysteine</i>	Bio-marker for blood vessel health and memory function
<i>Insulin</i>	Regulates blood sugar and metabolism
<i>Pyrroles</i>	Anxiety and stress marker
<i>Histamine</i>	Allergy, inflammation, & methylation marker
<i>CRP-hs</i>	Highly sensitive inflammation marker
<i>Cytotoxic #1</i>	Food sensitivity testing – 90 foods tested
<i>G6PD</i>	Genetic marker for IVC safety
<i>HbA1c ^{*NEW*}</i>	Marker of blood sugar levels over time
<i>Lipid Profile ^{*NEW*}</i>	Assessment of cardiovascular risk factors
<i>MTHFR/COMT Profile ^{*NEW*}</i>	Genetic markers for methylation pathways
Life Care Hormone Profile	Life Care Anti-Aging and Thyroid Hormones
<i>Estradiol</i>	Key hormone for women (also affects men)
<i>Testosterone</i>	Key Hormone for men (also affects women)
<i>Progesterone (Women)</i>	Predominantly female hormone (affects DHT)
<i>DHEA-S</i>	Most abundant adrenal hormone
<i>FT3, FT4, TSH, RT3</i>	Comprehensive thyroid hormone testing

Pricing	Male/Female	Explanation
Total	\$4295	<i>Cost if each test ordered separately.</i>
Discounted Total	\$2775	<i>Completing all tests gives the best foundation for treatment plan</i>
New Medicare Total	\$1198	<i>Pyrroles, Cytotoxic, Urine Vitamin C, Essential Fatty Acids, Amino Acids, Chromium & MTHFR/COMT Tests are not covered by Medicare</i>
Existing Medicare Total	\$2687
